ABSTRACT

The major portion of this directory of health occupations training programs in the state of Massachusetts consists of detailed information about each program, including educational admission requirements, costs (salary, stipend, tuition), affiliations, length of program, type of degree awarded, enrollment, and class capacity. This document is considered a preliminary listing for Massachusetts. It can be used as a replacement to the inventories published in 1967 and 1968 by the Training Center for Comprehensive Care. There is an alphabetical list of all health occupation programs within the state which also serves as a table of contents. The final section of the directory comprises a list of state institutions conducting health occupation training programs, grouped according to city and town. (KP)

HEALTH OCCUPATIONS TRAINING IN MASSACHUSETTS

(Preliminary Listing)

1970

This information on health occupations training in Massachusetts was collected in the spring and summer of 1970 as part of a survey of training institutions in all six New England States. The survey was conducted by the Training Center for Comprehensive Care, Tufts University, under Contract No. NIH 70-4151 with the National Institutes of Health, Public Health Service. Survey information on all training programs in the New England States will be published in the form of a directory by the National Institutes of Health in 1971. The directory will contain detailed information about each training program, including admission requirements, costs, affiliations, enrollment and capacity, and a descriptive text on each occupation.

This preliminary listing for Massachusetts can be used as a replacement to the inventories published in 1967 and 1968 by the Training Center for Comprehensive Care: Part One, "Massachusetts Health Manpower Training at Less than a Baccalaureate Level"; Part Two, "Massachusetts Health Manpower Training in Four-Year Colleges and Universities". These inventories also have text describing each occupation. Fuller descriptions are in the U.S. Department of Labor "Health Careers Guidebook".

This publication was prepared by the staff of the Training Center for Comprehensive Care: Suzanne B. Greenberg, project director; Nadia Williams, project coordinator, Ruth N. Page and Dain K. Waters, research assistants.

GUIDE TO SIGNS AND ABBREVIATIONS USED IN THIS REPORT

Parentheses are used around the occupational title used by the institution to describe its training program when its title differs from the title in more common use employed in this report.

Parenthesis used in the right hand column refer to enrollment figures rather than capacity.

The dash is used in the columnar data to indicate that there was no report on this item from the institution.

When tuition, stipend, or salary are left blank in the column, this indicates that none are required or offered.
